Education:

Bachelor's Degree in Computer and Automatic Control Engineering Oct, 2019: July 2021
(Faculty of Engineering, Tanta University, Tanta, Egypt)

- Grade: Very Good with a total percentage of 84%

Graduation Project: Sign Language Translator (Real Time)

- Grade: Excellent
- The project integrates advanced sign language recognition technology into a meeting web app to facilitate seamless communication for deaf. The system aims to enhance accessibility by providing real-time translation of spoken language into sign language and vice-versa, allowing for more inclusive and effective meetings using machine learning techniques including DL and RNN, frameworks like TF, TF-lite and Keras.

Postgraduate diploma in AI-Pro 9-months program Nov, 2022: July 2023 (Estimated)
(Instant, Cairo, Egypt)

Work Experiences:

Ma3an QA Chatbot

- The Ma3an QA Chatbot is designed to efficiently handle HR documentation queries by leveraging advanced AI techniques. It utilizes Retrieval-Augmented Generation (RAG), a cutting-edge approach that combines the strengths of retrieval-based and generative models.

AIC Competition

- **2024:** Contributed to the AIC competition, developing a Arabic Speech Recognition model from scratch using the SpeechBrain framework. This experience enhanced my understanding of deep learning techniques and model optimization, resulting in a top 10 finish.
- **2019:**Participated in the AIC competition, where worked on a Text Summarization model using the TensorFlow framework. This project improved my skills in natural language processing and model evaluation, and secured a spot in the top 15.

Software Engineer Intern (Frontend) | Storkyapp | Hybrid

- **Team Collaboration:** Worked closely with cross-functional teams in an Agile environment, actively participating in stand-ups, code reviews, and sprint planning to ensure efficient project delivery. Utilized tools like Slack for effective communication and task management, contributing to a collaborative and iterative development process.
- **React Frontend Development:** Developed and optimized responsive, modular components using React, integrating RESTful APIs, managing state with Redux, and ensuring performance through best practices like lazy loading and bundle size reduction.

Courses:

- LLM101x (Databricks edx - online): LLM: Application through Production
- LLM102x (Databricks edx - online): LLM: Foundation Models from the Ground Up
- CS229 (Stanford - online): Machine Learning.
- CS231N (Stanford - online): Convolution Neural Networks for Visual Recognition.
- Mastering Chatbots with Botpress, Transformers, RAG & LLMs (Udemy - online).
- DataCamp: Data Engineer, Data Analysis, Marketing Analysis.

Tools and Technologies:

Technical Knowledge:

- Machine Learning (Supervised & Unsupervised)
- Deep Learning, Computer Vision (CV) and Natural Language Processing (NLP)
- Data manipulation and visualization
- Probability, Statistics, Linear Algebra, and Numerical Optimization
- Model deployment on Android devices
- Data Structures and Algorithms
- Computer architecture and Operating sys
- Signals and Systems, Classic/Digital Control

Programming Languages and Frameworks:

- C/C++, Python, Javascript
- SQL and NoSQL (MongoDB)
- Pandas and Numpy
- Scikit-learn
- Matplotlib, Seaborn
- OpenCV
- TensorFlow, TF-lite and Keras
- Pytorch
- Nemo Nvidia Framework
- SpeechBrain Framework
- Lightning ai

Familiar with: GitHub, Linux, Fine Tuning, PEFT, Prompt Engineer, Quantization, Multilingual model, Transformer

Projects:

- Arabic Text Summarization.
- Arabic Speech Recognition.
- Vector Search RAG.
- ML-Project.
- Data Driven Marketing Using ML
- Shopliy ECommerce Web Page
- Database Booking Seats Online
- Network Security
- React Food Order App
- OOP Uber Sys
- OpenGL 2D Game

Volunteer:

Head of Media Oct, 2021: July 2023

Ma3an Family

- Directed media strategy and execution, enhancing brand visibility and engagement.
- Managed a team and collaborated cross-functionally to achieve media goals.
- Designed graphics and edited videos for various multimedia content.
- Built partnerships with media outlets and influencers to boost campaign reach.
- Analyzed media performance to refine strategies and optimize results.

Languages:

- Arabic: Mother tongue
- English: Very good
